

Iklash Khan Frontend Developer

📞 8529672944 ✉️ khaniklash000@gmail.com  [linkedin](#)

Frontend Developer with 1.8+ years building scalable React apps, optimizing performance, and integrating APIs—delivering end-to-end features with practical backend expertise.

Education

SRM Institute of Science and Technology <i>B.Tech in Computer Science and Engineering (CGPA: 9.1/10)</i>	Sept 2020 – June 2024
Suraj Senior Secondary School <i>Class XII (92%)</i>	March 2018 – March 2019

Experience

KPIT Technologies Pvt. Ltd <i>Frontend Developer</i>	July 2024 – Present <i>Bengaluru</i>
- Designed reusable React components including KPI cards, charts, filters, and tables to ensure consistency across analytics dashboards. - Orchestrated global state using Redux Toolkit, enabling predictable data flow and scalable frontend architecture. - Enabled real-time analytics by integrating RESTful services for scenes, KPIs, and time-series visualization. - Delivered dynamic Chart.js visualizations, accelerating ADAS analysis workflows and improving debugging efficiency by 20%. - Collaborated with cross-functional teams to launch responsive analytics tools, cutting manual CSV/JSON analysis by 40%.	
KPIT Technologies Pvt. Ltd <i>Frontend Developer Intern</i>	Jan 2024 – Jun 2024 <i>Bengaluru</i>
- Developed reusable React components, ensuring design consistency and accelerating feature delivery. - Built a debounced search filter in React, cutting redundant API calls and improving query efficiency by 40%. - Implemented server-side pagination with Redux Toolkit, reducing client load and improving rendering speed. - Conducted structured code reviews, enforcing standards, improving collaboration, and reducing bugs by 25%.	

Projects

E-Commerce Web Application <i>React.js, Redux, Tailwind CSS, Spring Boot, REST APIs, JWT, MySQL, JPA</i>
- Architected an E-commerce platform delivering end-to-end shopping workflows using React.js and Spring Boot. - Utilized Redux Toolkit for centralized state management, improving data flow and UI consistency. - Secured user sessions with JWT-based authentication, including login and signup workflows. - Engineered RESTful services supporting job listings, user profiles, and application lifecycle workflows. - Structured relational data models in MySQL using JPA, maintaining data integrity and improving query efficiency.

Technical Skills

Languages & Developer Tools: Java, C++, Git, Postman, VS Code, IntelliJ IDEA, React DevTools, ESLint, Prettier
Frontend: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI
Architecture & Performance: Component-based Architecture, Code Splitting, Lazy Loading, SEO Optimization, Vite, Babel
API & Integration: RESTful APIs, Axios, JWT
Backend & Databases: Spring Boot, MySQL, MongoDB, JPA
Soft Skills:- Collaboration teamwork, Client Communication, Problem-Solving, Code Reviews, Time management

Certifications & Courses

- **Data Structures & Algorithms with C++** – Udemy
- **Modern React with Redux** – Udemy
- **Modern HTML, CSS, JavaScript** – Udemy
- **Java Spring Boot Full Stack** – Udemy
